Enough
Secrets

Enough
Shame

Enough
Hurt

ENOUGH
IS
ENOUGH!

In Central Texas more than 1,300 children were confirmed victims of child abuse last year. These children need intervention and hope to begin a path to healing.

The mission of the **CACCT** is to provide comprehensive services that protect, promote healing and enhance the quality of life for abused and neglected children in Central Texas.

This **BLUE ENVELOPE** represents the **621** children who received **2,305** specialized services to include child friendly forensic interviews and coordinated case investigations, trauma focused counseling free of charge, family advocacy and support beyond the investigation.

Please be a **TRUE BLUE** helping hand and provide hope and healing to our young and helpless victims.

MAKE A DONATION TODAY!

HOW CAN YOUR SUPPORT HELP?????

- \$ 1,000** Provides Trauma Focused therapeutic treatment so a child victim may heal.
- \$ 500** Helps one victimized family have access to a child friendly environment that supports team collaboration for better case outcomes.
- \$ 250** Allows every victim to tell his or her story to a trained Forensic Interviewer and receive Family Advocacy support.
- \$ 100** Helps a child abuse victim and his or her caregiver attend a survivor or equine therapy group run by a Licensed Mental Health Therapist for one year.
- \$ 50** Pays for therapeutic supplies to help our youngest victims heal through play therapy.
